

Agreement for Parents of Students in Educational Talent Search

In order to attain the Educational Talent Search goals of encouraging my child to complete high school and continue his/her education at the postsecondary level, I agree to the following statements and will try to **the best of my ability** to follow these guidelines throughout the school year. I understand my child will be placed on probation with ETS if he/she does not follow the guidelines in the student ETS agreement. I will:

1. Help my child do school work at home by:
 - arranging for a well lighted place for daily study
 - limiting television viewing and/or phone calls Monday through Thursday
 - insisting that time each day be spent on reviewing school subjects and reading for pleasure
 - asking daily about the school day
 - providing assistance with school work where possible
2. Maintain regular communication with the school and Educational Talent Search personnel.
3. Attend two Educational Talent Search parent nights (one in the fall of 7th and 8th grade).
